Ramakrishna Mission was founded in the year 1897 in India by Swami Vivekananda, the foremost disciple of Sri Ramakrishna. It is a non-political, non-sectarian spiritual organization which has been engaged in various forms of humanitarian and service activities. At present, there are 176 centres around the world. Ramakrishna Mission in Malaysia officially came into existence in the year 2001.

## SWAMI VIVEKANANDA – A PUPPET SHOW

The one hour long puppet show was first developed in Hindi but owing to public demand, the English version is commissioned for the overseas audiences. The puppet show depicts various incidents from the life of Swami Vivekananda and also tells stories based on the message of the great saint.

The different stories and events are presented in the backdrop of a modern young boy being instructed about the important values of life by his grandfather while his vigilant mother cautions him to be practical instead of being idealistic. This is unique show with high-class background music, lights and special effects. The colourful puppets appear life-like through the nimble fingers of the dedicated team of puppeteers which enlivens the show. Special audio-visual effects and an engaging script make the show a great watch for children as well as adults.
