

FutureTech 3.0 Cohort

	A2Tech Sdn Bhd Revolutionize productivity with robotics & AI.
	Augmentus Pte Ltd A robotics platform with intelligent 3D scanning and AI robot motion planning systems; no-code robot programming.
	Beep Technologies Pte Ltd A unified eMobility platform providing a borderless & interoperable charging experience for drivers.
	Botsync A low code platform used to simplify robotic integration.
	Divigas Produces next generation Hydrogen Separation Membranes.
	Entomal Biotech Sdn Bhd The fly breeder that cleans your waste.
	Evfy Pte Ltd A tech-enabled sustainable logistics solutions provider.

	<p>Hydrexia Sdn Bhd A renewable energy infrastructure provider that spans across the entire spectrum of hydrogen supply chain.</p>
	<p>Ion Mobility An Electric motorcycle and Energy Storage Solutions provider.</p>
	<p>Kazam EV Tech Pte Ltd Kazam is an e-Mobility platform with globally scalability, empowering Charge Point Operators, Fleet Operators, Electricity Grids & Vehicle OEMs, digitizing and managing the entire value chain of electric vehicles.</p>
	<p>Magorium Technology converts contaminated and unsorted plastic into a new road construction material to pave greener roads.</p>
	<p>Midwest Composites Sdn Bhd Sustainably Engineered BioComposites using Natural Fibers and Resins for Green Mobility Solutions.</p>
	<p>Mycotech Pte. Ltd. Develops sustainable and high-performance mycelium leather material.</p>
	<p>Open Energy Revolutionizing B2B fleets with HyperSwap, the most advanced & affordable EV Battery Swap and Energy Storage solution, enabling non-stop, sustainable operation. Complete EV platforms and advanced engineering drive New Mobility & Energy solutions.</p>

	<p>Process Botics Pte Ltd AI-enabled platform that helps in the decarbonization of real estate & infrastructure sectors (measuring emissions).</p>
	<p>Qarbotech Sdn Bhd Upcycles agrowaste to produce light capturing technology for agriculture, horticulture, carbon capture and renewable energy.</p>
	<p>SunGreenH2 Supercharging Electrolysers and manufacturing affordable and scalable Green Energy.</p>
	<p>TraceX Technologies Ptv Ltd A Blockchain powered Sustainability and Decarbonization platform to build a nature-positive, climate resilient, and equitable future.</p>
	<p>Wildfire Energy Pty Ltd Focus on distributed energy and hydrogen recovery from residual biomass and wastes.</p>
	<p>Zapp World We take the solution to the problem, zapping waste and emissions at source.</p>
	<p>Tigasfera Integrated on-site waste conversion solution to empower organisations towards circular economy and renewable energy.</p>

	<p>V-CRED Reimagining credit check.</p>
<p>semarkt.</p>	<p>semarkt. Empower micro businesses, including street vendors, by enhancing their financial literacy and utilizing data analytics to maximize their potential.</p>
<p>SAPOT</p>	<p>SAPOT Your personal <i>self-care</i> and <i>social support</i> platform.</p>
	<p>ENOKU Bridging the employment gap between Persons with Disabilities and Employers.</p>
