

## **Industries Leaders / Organizing Partners:**

### **About Silterra Malaysia Sdn Bhd**

SilTerra Malaysia Sdn Bhd is a semiconductor wafer foundry offering fabrication and design support services in CMOS logic, High-Voltage, Mixed-signal, RF and MEMS technologies down to 90 nanometer feature size. SilTerra's wafer fab has a design-in capacity of 40,000 eight-inch wafers per month and currently serves customers in USA, Taiwan, South Korea and China.

Environmentally vigilant, SilTerra delivers award-winning, world-class performance to its customers seeking flexible capacity, custom technologies, competitive advantages and around the clock customer support. SilTerra is ISO 9001:2008 and ISO 14001 certified.

Starting commercial production in 2001, the company's headquarters and factory are located in Malaysia's Kulim Hi-Tech Park, with sales and marketing offices in San Jose (California) and Hsinchu (Taiwan). For additional information on SilTerra or its services, please visit [www.silterra.com](http://www.silterra.com)

### **About Microsoft**

Microsoft (Nasdaq "MSFT" @microsoft) is the leading platform and productivity company for the mobile-first, cloud-first world, and its mission is to empower every person and every organization on the planet to achieve more.

### **About TechSource Systems:**

Incorporated in 1996, TechSource Systems is committed to providing quality technology solutions that empower the engineering and R&D community, providing the ultimate computing environment for technical computation, design, simulation, visualization and implementation.

As the sole distributor in Southeast Asia for MathWorks Inc., the leading developer of the MATLAB® and Simulink® family of products, we provide organizations and businesses with a variety of the best tools, products and services to facilitate innovations. Our clients include many research and development institutes, as well as multinational companies operating in this region.

We believe in value-added service and delivering solutions that enable scientific accuracy, speed and precision. This gives our customers the advantage in the ever-changing market, to achieve precision in their design, testing, verification and implementation processes that ultimately lead to the desired end-results.

TechSource Systems currently has offices in Singapore, Malaysia, Thailand and Philippines, with its headquarters based in Singapore. We are an ISO 9001 certified company and have been awarded the Singapore's Outstanding Enterprise 2013 Award.

### **About Keysight Technologies:**

Keysight Technologies (NYSE: KEYS) is a global electronic measurement technology and market leader helping to transform its customers' measurement experience through innovations in wireless, modular, and software solutions. Keysight's electronic measurement instruments, systems, software and services are used in the design, development, manufacture, installation, deployment and operation of electronic equipment. The business had revenues of \$2.9 billion in fiscal year 2015.

In Malaysia, Keysight Technologies began operations in Penang in 1972. Today, Keysight occupies a 42-acre site in Bayan Lepas, in a 1.2 million sq. ft. facility, with a workforce of about 2,600 employees, with majorities being professionals. It is one of the core sites for Keysight worldwide, with operations spanning business management, sales, support, marketing, manufacturing, R&D, supply chain and global infrastructure services. Keysight's sales offices in Penang and Petaling Jaya serve customers with a broad range of products and solutions.

Information about Keysight is available at [www.keysight.com](http://www.keysight.com)

### **About National Instrument:**

Since 1976, NI has made it possible for engineers and scientists to solve the world's greatest engineering challenges with powerful, flexible technology solutions that accelerate productivity and drive rapid innovation. Customers from a wide variety of industries—from healthcare to automotive and from consumer electronics to particle physics—use NI's integrated hardware and software platform to improve the world we live in.

### **About Motorola Solutions:**

Founded in 1928, Motorola has a history of innovation that has revolutionized communications. From pioneering mobile communications in the 1930s and making equipment that carried the first words from the moon in 1969, to supporting modern-day emergency response equipment for disaster relief efforts around the world, Motorola Solutions has a global footprint with products that demonstrate its thought leadership.

Motorola Solutions first established its supply chain operations in Penang, Malaysia in 1974 followed by the R&D operations in 1976. Today, Motorola Solutions Malaysia's fully integrated R&D Center is responsible for conceptualizing, designing, developing and launching of leading-edge mission critical communications solutions and services that enable first responders and public safety agencies to reach new levels of operational efficiency and safety. Complemented by the Supply Chain Control Tower, Finance Shared Service and the Global Regulatory & Reliability Operations, it is the largest integrated operation in Motorola Solutions. Our corporate office in Kuala Lumpur houses the country sales and marketing, support services, legal, public and government affairs, and project deployment teams for Malaysia customers. Since its inception, Motorola Solutions have invested over US\$1 billion in Malaysia and have grown from a team of 10 staff to a 1800-strong workforce.
